

# ECO 303

## Natural Paglierino

VERA PIETRA NATURALE

Selected to highlight the natural golden oxidation of the stone, these products are ideal for creating both interior and external wall coverings, providing a warm and visually-strong element to living areas.

They lend themselves to the creation of dry-laid walls and to garden landscaping compositions.

The master workmanship, together with the professional standards and quality of the materials makes each Ecopietra product unique, setting it apart for originality and style.
