

# ECO 701

## Split Blocks

VERA PIETRA NATURALE

The Ecopietra ECO 701 natural stones for walls are fabricated and selected by hand with great care and attention to guarantee that every product meets the highest quality standards. They are ideal for creating both internal and external "italic" or roman-style walls. Suitably prepared for constructing linear walls and wall cladding with limited thickness specifications, the Ecopietra ECO 701 split blocks provide visual character and classic style to all types of mural covering, combining easy installation with visual impact of undoubted worth.
