

ECO 801

Modular Slabs

VERA PIETRA NATURALE

The past and the present reunited in a single geometric pattern incorporating shapes and chromatic shades that create a sophisticated paving application which is pleasing to the eye and, at the same time, exclusive in terms of design.

A creative solution for shaping interior spaces that is laid using the "opus romano" technique, using either adhesive or mortar.

STONES BY NAME:

Hard limestone.
Lab trials carried out by the
Ufficio di Geologia di
Bolzano.

TYPE:

Eco 801 A
